

Honoring our Board

On December 5, 2012 the Foundation Board members and their spouses were honored with a Banquet Dinner at the Alumni Center and a recognition ceremony for the three (3) oldest members of our Board. For their years of service to the Foundation and the community. We would like to say **THANK YOU!**

Your leadership, professionalism, and intelligence has helped guide this Foundation and University and has set an example for many more.

FFA Forestry Contest

March 13, 2013

The Arkansas Forestry Commission held its Annual FFA Forestry contest for the area high schools participating in the tree identification program. Around 100 students from various schools participated. They used the Foundation Pleasance to conduct the test. They are judged on eight (8) categories.

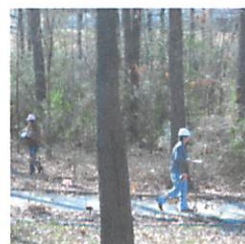

Such as: Tree Identification, Equipment ID, Tree measurement, Timber Stand Improvement, Map Interpretation, Compass Reading, Tree Disorder and Forest Procedures.

This program is held every year during March. Here are a few photos of the event:

2013-14 Holiday Schedule

2012 Grant to RTV or Dept. of Radio-Television

In the 25th issue of the Voices fall 2012 magazine on page 20-23 is the article on the new HD-TV (High-definition television). This article details the major project to convert its TV studio to the world of HD. This article also gives many examples of how the conversion is benefiting the students and faculty by converting everything to digital. It allows them to use equipment that is similar or in some cases better

than what they will have at smaller stations. The principles and practices will be the same they will confront in broadcast media. It has also reduced the amount of space needed to house the top of the line equipment and uses more efficient technology and is more energy efficient.

Our grant also allowed them to secure a matching grant to aide in the upgrade of the RTV lighting.

The new LED lighting system saves the University money in energy savings through new Green Technology
